

ALCAT

WORLDWIDE

Grow your practice and improve patient outcomes with the leader in food sensitivity testing

For almost 25 years, The ALCAT Test has provided physicians and their patients with a tool to successfully overcome a wide variety of conditions resulting from food and chemical intolerances.

The ALCAT Test accurately measures immune reactions to over 290 foods, additives and environmental chemicals using just a small quantity of blood.

“The ALCAT Test is the most effective tool I use in my practice to assist my patients in the management of food sensitivity and intolerance”

-Lea Russell, MBA, RD, LD/N
Nutrition Health Services, Tampa, Florida
